Outcomes

• All students on the team will be able to list their favorite activities in which they move and play and will draw a picture of themselves doing that activity.

• All students on the team will be able to draw a design of and build a LEGO® model of their favorite activity on their individual baseplate.

2. There are six baseplates in the Explore set. Give one to each student.

3. Introduce the prototyping pieces (Bag 4) to the team. They will use these to create their models. Do NOT open any other bags.

4. Provide extra scrap paper as needed for the team to draw and write their ideas.

Guiding Questions

• How does your favorite activity help raise your heart rate?

• Where do you play your favorite activity?

Cleanup Pointers

• The LEGO models built should be taken apart. The prototyping pieces could be placed back in the Explore box or in a container labeled “Prototyping Pieces.”
