FIRST® is a robotics community that prepares young people for the future through a suite of inclusive, team-based robotics programs for ages 4-18 that can be facilitated in school or in structured after-school programs. As the world's leading youth-serving nonprofit advancing STEM education, *FIRST* merges the rigor of STEM learning with the fun and excitement of traditional sports through an expanded team structure. Whether it's finding their people or finding their path, students will gain the skills and confidence with *FIRST* to forge ahead and build their future.
