9-16*

CARGO CONNECT℠

START A TEAM!

FIRST® LEGO® League guides youth through STEM learning and exploration at an early age. Friendly competition is at the heart of Challenge, as teams of students ages 9-16* engage in research, problem-solving, coding, and engineering – building and programming a LEGO® Education SPIKE™ Prime or LEGO® MINDSTORMS® robot that navigates the missions of a robot game. As part of Challenge, teams also design an innovative solution to a real-world problem relevant to this season's transportation theme.
