

FIRST® MENTOR NETWORK

Top 5 Tips for Creating your Mentor Profile

Make it easier for more *FIRST*® teams to find you! Use these tips to create or refresh a mentor profile highlighting your personality, unique skills, and expertise.

When you're ready, be sure to message teams looking for your skills!

1.

Add a Catchy Headline

Let teams know if you're looking to mentor a specific program, team type or want to help on a specific subject.

2.

Add your *FIRST* Experience

Tell teams if you have experience as a *FIRST* event volunteer, coach, or parent. If you are brand new, share your excitement to get involved!

3.

Add *FIRST* Alumni Info

Add to your title or profile! If you are an alum in our registration system, your profile will show an alumni badge too.

4.

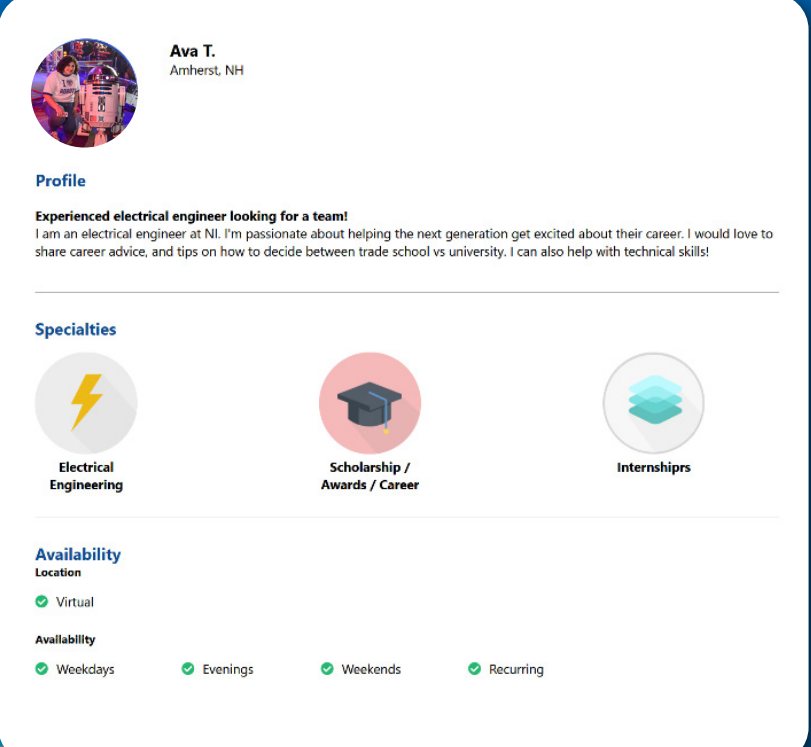

Highlight your Unique Abilities

Include your job title and employer. Is your employer a *FIRST* sponsor? Add it in! Tell teams about your areas of expertise and interests.

5.

Put your Best Photo Forward

Use a professional headshot or avatar. Make sure your picture is appropriate for all ages and accurately represents you.
